## **ANNUAL GENERAL MEETING**

**MONDAY 20 AUGUST 2018**

### **MINUTES**

**Held at the Kioloa Community Centre at 7.45pm**

**There were present:** J Stanwix (Chair), T Beckett, L Butler, B Ellis, R Lucas,  
C Jansma Smith and 17 others

**In attendance:** Councillor Mark Kitchener

#### **1. Apologies**

Apologies were received from M Beckett, M Heath, J Langlois, K Lucas, C Mason,  
M McDougal D Nicholls, I Riley

#### **2. Welcome**

Justin Stanwix welcomed all present with particular reference to Cllr Mark  
Kitchener

#### **3. Minutes of the AGM held on 10 July 2017 – Attachment 1 (pp 6-9 )**

The Minutes of the AGM held on 10 July 2017 had been circulated.

**MOTION:** That the Minutes of the AGM held on 10 July 2017 be accepted

**MOVED:** D Franke                      **SECONDED:** T Beckett

**CARRIED**

## **4. President's Report**

Justin Stanwix reported as follows:

### **Welcome and thanks to all for attending this AGM**

This year has been a quiet year for your Association. The threatened Council Rates increases have materialised and continue to increase. There is no doubt that our Shoalhaven City Council has a challenge in maintaining the infrastructure in our beautiful area, with seemingly endless roads and associated works requiring basic maintenance and upgrade. For Bawley Point Kioloa residents the impact of the increases is much more costly than for residents of other places with lower land values.

### **Our Community**

While our community is relatively small, Bawley Kioloa Termeil is a real village or set of villages with at least 3 generations well represented. The range of activity is diverse and the commitment to making life better and interesting is well honoured by a tireless band of people. The special functions we enjoy whether the Annual Fair, ANZAC commemoration, the special dinners, dances, Murramarang Market, films and quizzes do not happen by accident. It is always dangerous to mention specific names but a few are inevitable in this context: John and June Rushton and Annie Haughey are absolute saints and with them, Helen Nelson, Marie O'Connell and Julie Rushton. A special thanks to Tracey Hatch for her 15 year commitment to the Newsletter and to Allan Baptist for his enormous, largely unsung, contribution to our Community. Barrie Ellis has been a stalwart on the path and Mens Shed and we thank him also.

The work done by members of the Men's Shed, Fire Brigades, Path Connect, Nippers, Community Garden and friendship groups is important in so many ways and we acknowledge and thank them.

### **The Gantry**

The car park around the Gantry has been upgraded. The renewed gantry albeit without the historic features of the original is back in full service .

### **Our Roads**

Council faces a real challenge. By all accounts much of its infrastructure is old or aged and it is responsible for thousands of kilometres of road. Much of it needs work - as we know so well. I refrain from comment on the magic black blobs that get dropped around the place to fill pot holes but in the absence of that work we could have a real mess. A number of our roads need real work, including Bawley Point Road from the Highway that seems to get readily undermined by water and

collapses.

## **Communication**

Association activities including minutes, meeting notices etc are placed on the website and Facebook. I understand that not everybody has Facebook or can easily find minutes on the website but they are available there. We have noticeboards at the Bawley shops and the school bus terminal at Forster Drive that has space available for community use. I think more use could be made of these facilities.

## **Willinga Park**

Last year I commented that in my opinion we are so lucky to have the tremendous development at Willinga Park with its Stock and Performance Horses and to be able to share in the generous Open Days that Terry Snow offers. I can only repeat my opinion!

## **Community Connect**

The major path to connect Bawley Point and Kioloa continues to be the major community construction activity. The BIG PATH has attracted fantastic support from many people and our thanks go to Roger Lucas and Barrie Ellis as Joint Chairs for the work they have done.

A special thanks must go to the Ladies who have magically been responsible for a number of recent pours and are continuing their contribution for more pours. Our RFS have been wonderful and on behalf of your Association I express out thanks to Charlie Magnussen and Russell Clifton and the RFS team.

The path is wending its way to Sandmines and also on the Kioloa end but a number of obstacles make the next section a little more challenging than the earlier part.

I am conscious that the same people have been slaving away at the path for some years now and that there is a certain sense of tiredness with the time it is taking. Council and our Federal member Anne Sudmalis acknowledge this and we will continue to explore funding channels to advance the work

## **Mobile Black Spot Tower**

The Association has taken consistent steps to press for the Mobile Phone Black Spot remediation. Last week the Tower at the ANU was commissioned by local member Ann Sudmalis in the presence of Telstra officers and residents.

While not everyone supports the Tower, the importance of effective mobile services in the district, especially for emergency service personnel, cannot be underestimated. We are a tree and beach endowed community and communication is essential for the emergency response for fishermen, swimmers - quite apart from what is accepted as basic communication services for our residents generally.

I record our thanks to the ANU for making the tower possible on its land in a discreetly located spot.

### **Are we Fire Safe?**

The Tathra fires and the recent fires in the Budawangs remind us of our vulnerability to fire. We have had repeated warnings and reminders BUT now is the time seriously to get fire ready.

Charlie (Magnuson) will tell us in a moment what is necessary to be fire ready and what is meant by having a fire plan.

We have one road in this village and unless you count the road through the forest, that is the only one. It is lined with dense trees and bush. The dry combustible material on the ground is frightening. I really don't think this area is prepared for fire.

There is strong historical evidence that when the West Coast of the United States has serious fires, the East Coast of Australia follows with a severe fire season.

The RFS has been asking to clear an area around Kioloa for five years and cannot get approval. We must all ensure our homes and surrounding areas are clear of combustible material.

We must do that NOW and not wait until October or December

### **Thanks to the Committee**

My thanks to all members of the Committee and to you for your support of your Association.

**MOTION:** That the President's Report be accepted

**MOVED:** T Beckett                      **SECONDED:** R Lucas

**CARRIED**

### **Treasurer's Report - (Attachment 2 p10 )**

Roger Lucas spoke briefly to the report. He informed the meeting that the Community Connect pathway account was held by Sport and Recreation and currently stood at \$35K with a further \$20K pledge from S&R.

Shoalhaven City Council was meeting ongoing costs and the Vieolia grant would shortly be acquitted with funds going to Council for concrete costs.

**MOTION:** That the Treasurer's Report be accepted

**MOVED:** R Lucas                      **SECONDED:** J Nelson

**CARRIED**

## Elections Of New Executive and Committee Members For 2018-2019

<b>NAME</b>	<b>POSITION</b>	<b>Nominator</b>	<b>SECONDER</b>

J Langlois	Member	T Beckett	L Butler
C Jansma-Smith	Member	H Nelson	T Beckett

**Meeting Closed at 8.30pm**

**BAWLEY POINT & KIOLOA COMMUNITY ASSOCIATION**

**Annual General Meeting**

**10 July 2017**

**MINUTES**

**MEETING HELD AT 7:45PM IN THE BAWLEY POINT/KIOLOA COMMUNITY HALL**

**There were present:** J Stanwix, T Beckett, S Betts, L Butler, B Ellis, M Heath, R Lucas, J Nelson, D Nicholls, J Langlois, C Jansma Smith and 27 others

**1. Apologies:** None recorded

**2. Welcome:** Justin called the meeting to order and welcomed all those attending

**3. Minutes of the 2016 AGM**

The Minutes of the 2016 AGM were approved

**MOTION:** That the Minutes be approved

**MOVED:** J Stanwix                      **SECONDED**                      T Beckett

**CARRIED**

**4. Presidents Report**

Justin reported as follows:

**Welcome and thanks to all for attending this AGM**

This year has been an active year but especially since January when a Special General Meeting voted to oppose he proposed Council rates increase and to stridently reject the Council's contemplation of terminating involvement in local Pump Out services. I will return to this subject.

**The Gantry**

The destruction of the heritage Gantry at Bawley Point caused much sadness in the Community and at the last AGM a committee as formed to pursue its restoration. Terry snow and Liza Butler worked on this important task and in his own inimitable way, Terry took charge of its rebuild/replacement and to do so NOW. The restoration happened in time for Christmas and despite "Fishing Only" signs, hundreds of locals and visitors of all ages have ensured that the veteran resident stingray has frequent company from delighted jumping children and others! A huge vote of thanks to Terry Snow who not only did it but quietly paid for it as well. I need also to acknowledge the role of Michael Strachan from SCC in this achievement.

## **Rates Increase**

The rates increase proposed by Council was strongly opposed by the whole City. Your Association engaged in an active campaign in the media, radio and by letters to the Mayor and Councillors. We advised the acceptance of a modest increase for one year pending the outcome of Government consideration of the IPART Report. We attended a day meeting with Council and subsequently made a submission to the Council meeting. I had a number of exchanges with Mayor Findley. As you know, these representations were to no avail and Council voted by a majority to seek a large increase. IPART has approved a huge increase for one year presumably to monitor the expenditure of the increase amount. A similar huge increase can be expected next year and in the absence of real protest is sure to occur.

The difficulty, as I see it, is that the figures that Council quotes about average rates increases per household on average valuations do not remotely reflect the rates in Bawley and Kioloa and many residents will be liable for rates of 2 or 3 times the averages quoted if applied without some special reconfiguration of rating. This is an important matter for our community and requires much vigilance.

Council faces a real challenge. By all accounts much of its infrastructure is old or aged and it is responsible for thousands of kilometres of road. Much of it needs work - as we know so well. I refrain from comment on the magic black blobs that get dropped around the place to fill pot holes but in the absence of that work we could have a real mess. A number of our roads need real work, including Bawley Point Road from the Highway that seems to get readily undermined by water and collapses.

## **Pump Out Service**

Your Association maintained an active and successful campaign.

## **Communication**

Association activities including minutes, meeting notices etc are placed on the website and Facebook. I understand that not everybody has Facebook or can easily find minutes on the website but they are placed there. I will be making a more user friendly page a priority this year. Otherwise we have noticeboards at the Bawley shops and the school bus terminal at Forster Drive that has space available for community use. I think more use could be made of that facility. We have tried to ensure residents are aware of meetings - through notices around the shops, noticeboards and the Sport and Rec newsletter and have made a number of letterbox drops for that purpose. I encourage everyone to leave their email tonight so we can improve our email communication.

## **Our Community**

While our community is relatively small, Bawley Kioloa Termeil is a real village with at least 3 generations well represented. The range of activity is diverse and the commitment to making life better and interesting is well honoured by a tireless band of people. The special functions we enjoy whether the Annual Fair, ANZAC commemoration, the special dinners, dances, films and quizzes don't happen by accident. It is always dangerous to mention specific names but a few are inevitable in this context: John and June Rushton and Annie Haughey are absolute saints and with them, Helen Nelson, Marie O'Connell and Julie Rushton. A special thanks to Tracey

Hatch for her 15 year commitment to the Newsletter and to Allan Baptist for his enormous, largely unsung, contribution to our Community.

The work done at the bands at the Mens' Shed, Fire Brigades, Path Connect, Nippers, Community Garden and friendship groups is important in so many ways and we acknowledge and thank them.

### **Willinga Park**

We are so lucky to have the tremendous development at Willinga Park Stock and Performance Horses and to share in the generous Open Days. Terry Snow will provide an update later in the Meeting.

### **Path Connect**

The BIG PATH has attracted fantastic support from many people and our thanks go to Roger Lucas and Barrie Ellis as Joint Chairs for the work they have done. The path is wending its way up the hill past the shops and in a few months serious work will resume to extend the path to the limit of funds available.

### **Mobile Black Spot Program**

The Association has taken consistent steps to expedite the Mobile Black Spot roll out. Our local member Ann Sudmalis' Office advised today that it is on track for early 2018. A report from Barrie Ellis on this and the NBN roll out will be available later in the meeting.

My thanks to all member of the Committee and to you for your support of your Association.

**MOTION:** That the President's Report be accepted

**MOVED:** L Butler                      **SECONDED:** A Baptist

**CARRIED**

### **5. Treasurer's Report (Attached)**

The Treasurer tabled his report and spoke briefly to it. He noted that the general outlook was satisfactory.

**MOTION:** That the Treasurer's Report be accepted

**MOVED:** R Lucas                      **SECONDED:** M Heath

**CARRIED**

## 6. Elections of New Executive and Committee Members for 2017-2018

<b>NAME</b>	<b>POSITION</b>	<b>NOMINATOR</b>	<b>SECONDER</b>
J STANWIX	PRESIDENT	D FRANKE	R LUCAS
L BUTLER	VICE-PRESIDENT	C SMITH	S BETTS
R LUCAS	TREASURER	K LUCAS	B ELLIS
T BECKETT	SECRETARY	J STANWIX	L BUTLER
B ELLIS	MEMBER	R LUCAS	J STANWIX
J NELSON	MEMBER	C SMITH	L BUTLER
C SMITH	MEMBER	R JANSMA	J JANSMA SMITH
S BETTS	MEMBER	L BUTLER	T BECKETT
J LANGLOIS	MEMBER	L BUTLER	T BECKETT
M HEATH	MEMBER	R LUCAS	K LUCAS
D NICHOLLS	MEMBER	R LUCAS	K LUCAS

There being no further nominations, all nominees were declared elected. J Nelson subsequently withdrew and was replaced by J Jansma-Smith by cooption.

**Meeting closed at 8.15 pm**

**BAWLEY POINT AND KIOLOA COMMUNITY ASSOCIATION INC**  
**GENERAL MEETING**  
**MEETING COMMENCED IMMEDIATELY FOLLOWING THE ANNUAL**  
**GENERAL MEETING AT 8.30PM**

**MINUTES**

**MONDAY 20 AUGUST 2018**

**There were present:** As per AGM

**1. Apologies**

Apologies received as per AGM

**2. Minutes (Attachment 1 pp 13-17)**

The Minutes of the General Meeting held 16 April 2018 were attached for approval

**MOTION:** That the Minutes be accepted

**MOVED:** C Jansma-Smith      **SECONDED:** C Magnusson

**CARRIED**

**3. Correspondence (Attachment 2 pp 18-19)**

Correspondence received since the General Meeting on 16 April was listed in the Correspondence Log attached and noted.

The Secretary ([secretary@bawleykioloa.org.au](mailto:secretary@bawleykioloa.org.au)) may be contacted for an email copy of any particular item

**4. Treasurer's Report**

The Treasurer's Report was as per AGM at which it was moved, seconded and carried unanimously

**5. General Business**

**5.1 Community Connect**

Roger commented briefly that the budget and account for Community Connect was carried in Sport and Rec as it was able to raise funds. The balance stood at approximately \$35,000 and there was a further pledge of \$20,000 from Sport and Rec. He mentioned that Shoalhaven City Council had been covering a lot of ongoing costs. The Veolia Grant had now been acquitted and would be paid to the SCC for concrete.

## **5.2 NBN / Mobile Black Spot Update**

Barrie commented that both the NBN and Mobile Black Spot mitigation had been delivered although not without normal hiccups. He would continue to keep an eye on it for the Committee

## **5.3 Provision of exercise equipment and fitness posts across the area**

Euan Sussman noted that the Braidwood Branch of the Bendigo Bank had provided funds for exercise areas there and suggested that the local Branch be contacted about funding for Bawley/Kioloa

## **5.4 Local Medical Practice**

Jocelyn Sussman noted:

- There continued to be community interest in attracting a doctor to the area as residents were concerned about the likely response times in cases of emergency;
- Scott might be persuaded to sell his surgery building;
- Darryl Leslight would provide building space if a doctor can be found
- The practices in the area and the ANU Medical School were not interested in locating a doctor in Bawley/Kioloa (although Jocelyn had yet to talk to the Sub-Dean, Prof Amanda Barnard)

## **6. Other Business**

Barrie indicated that he intended to establish an electronic notice board and response form to canvass ideas for amenities, services and projects from the community, particularly the younger generation

## **7. Next Meetings**

**Committee: Tuesday 2 OCTOBER 2018**

**General Meeting: Monday 15 OCTOBER 2018**

**BAWLEY POINT & KIOLOA COMMUNITY ASSOCIATION**

**GENERAL MEETING**

**MINUTES**

**MONDAY 16 APRIL 2018**

**Meeting of the Committee held at the Community centre at 7.45 pm**

**There were present:** J Stanwix (Chair), T Beckett, L Butler, B Ellis, M Heath, R Lucas, D Nicholls, C Jansma Smith

**In attendance:** Clr Kaye Gartner (Ward 3) and 4 others

**1. Apologies**

Apologies were received from: S Betts, J Langlois, K Wardner-Brown

**2. Minutes**

Minutes of the General Meeting held on 19 February 2018 were attached for approval

**MOTION:** That the Minutes be accepted

**MOVED:** L Butler      **SECONDED:** M Heath

**CARRIED**

**3. Correspondence**

Correspondence received since the General Meeting on 19 February is listed in the Correspondence Log attached. The Secretary ([secretary@bawleykioloa.org.au](mailto:secretary@bawleykioloa.org.au)) may be contacted for an email copy of any particular item

**4. Treasurer's Report**

The Treasurer's Report was tabled for approval

**MOTION:** That the Treasurer's Report be accepted

**MOVED:** R Lucas      **SECONDED:** D Nicholls

**CARRIED**

**5. General Business**

**5.1 Community Connect**

The following Report from Barrie Ellis was noted

**Funding:**

Michael Strachan visited last week and confirmed that Council has provided additional funds to complete to Sand Mines. Effectively this means that we can acquit Veolia's

grant, use Council funds and leave the money raised by Sport and Recreation untouched.

The Council has taken responsibility to complete the Culvert in the July/August time frame. It will place a marker on the northern side to which our current work will concrete to. It will also concrete from the southern side of the culvert up to the northern side of Peter Cosgrove's drive way.

Council will clear the shrubbery along Peter Cosgrove's fence, evaluate the large gum tree on the northern side of his drive way and remove it if it considers it is a long term threat to the integrity of the path. It will also assess whether Peter Cosgrove's drive ways surface is solid enough to allow safe passage of bicycle's traversing it. I have also requested an assessment be made of the Parish and Armstrong driveways.

The only issue with Council doing the shrubbery is timing. As Michael does not control the resources that do this work I am holding the option of doing it with our own contractors so we can meet our project time frame.

The next pour will be undertaken by the RFS on 21 April, weather permitting

#### **Kioloa:**

Michael believes that there is funding this FY for the section from Kioloa Caravan Park to Butler's Creek reserve. The budget figures I have put together for this work is circa of \$24,000. Both RFS captains have agreed to provide human resources.

The Caravan Park may lose some parking space as cars will be required to parallel park rather than angle park. However the value of the path, particularly as it makes it way to Mud Holes will be a great value offset.

I await Michael's confirmation that he has budget for this work now I have given him approximate figures.

#### **ANU**

Steve Berkhout has agreed in principle to allow the path to access and egress the ANU in two places:

\* Mud Holes Carpark south to approximately past the ANU gate then back to the road verge.

\* Butler's Creek Bridge, to the left of the Kioloa Sign to egress out into Butler's Creek Reserve.

( I have cut a bridle trail through the bush which with some small effort could become a walking track in the interim)

Steve is required to seek agreement of his ANU Board in Canberra. To enable this approach, Council is required to provide a map of both sections with the proposed route. Michael has this on his to do list.

ANU has a process including flora evaluation as of course does Council. Hopefully these reviews do not throw up any immovable road blocks. Timing of the ANU process is unknown at this point.

#### **Route confirmation.**

Once the ANU routes are finalized then the total route can be confirmed.

#### **Resources:**

Charlie and Russell have committed their respective teams to get us to Sand Mines and if money is available, complete Kioloa. Cec Skwarko has said he will participate in a pour "to keep the momentum going" should he be needed.

The Men' s Shed is still committed to providing the formwork however with its own project of shed completion together with all of the fund raising activities, it is experiencing significant resource contention. Equally, the RFS has not been required to attend any fires which has given it the opportunity to work on the path. However this situation as you will appreciate is not a given.

The meeting agreed to a Vote of Thanks to the RFS, to the “Mum’s Pour” and others involved.

## **5.2 NBN / Mobile Black Spot Update**

The following report from Barrie Ellis was noted

### **Mobile Black Spot**

The site at ANU is confirmed and VisionStream has an approved DA to proceed. Yes, VisionStream sent letters outlining the development, then another letter some months later saying there were no objections. The Men Shed received one as we are a neighbour of ANU. I am not sure many in the community would see this as consultation. The site at ANU is confirmed and VisionStream has an approved DA to proceed. Yes, VisionStream sent letters outlining the development, then another letter some months later saying there were no objections. The Men Shed received one as we are a neighbour of ANU. I am not sure many in the community would see this as consultation.

#### **Coverage:**

Any mobile implementation cannot guarantee 100% area coverage as there are geographical obstacles such as hills and vales that will affect reception. Telstra assures me it has done its best to maximise coverage but as you will appreciate sometimes the best sites are not commercially available.

“Go live” is expected at the end of June.

### **NBN**

Bawley Point:

NBN Fibre to the node was implemented around July 2017. Fibre connection from the Thrush Street Exchange to its national network connection at Termeil was complete in December 2017.

Bawley Point residents who have accepted offers from retail Telecommunication companies to connect to the NBN have had varied experience, usually unacceptable delays and very poor service.

NBN speeds have been less than impressive and as expected there has been much finger pointing between NBN and retail telecommunication providers.

Rod Simms, Chairman of ASIC has indicated that the retail Telecommunication companies had purposely sold plans that NBN could not support and ASIC had intervened and the Telcos had refunded money. The upshot is that the BP customer experience has been a mixed bag, usually bad. Consequently it is still recommended that residents do not move to the NBN until it is absolutely necessary.

Kioloa:

NBN has advised that it intends to dig in fibre to Kioloa to connect it to the Thrush street exchange and provide fibre to the node services similar to those provided to Bawley Point. There has been some delay due to access to an agreed route and it is hoped to start work in July 2018.

Residents should be mindful that with the advent of a mobile tower in the Kioloa area in the near term( see note above) 5G mobile broadband will be offered as a competitor to NBN sometime in 2019. Even NBN has admitted that it may lose upwards of 15-20% market share to mobile broadband.

### **5.3. Junction of Bawley Point Road and Princes Highway**

It was noted that the RMS team had installed three No Standing signs as seen below. A watching brief will be kept on the effect of the signs.

### **5.4 Councillors Visit**

The Councillors' Visit finally took place on 6 April. Justin advised that he and Carrie had accompanied the Bus (which was an hour late) on a whirlwind tour.

Carrie noted that there was a need to alert Council immediately about the suggestion that a Portaloo be installed at the Gantry during the Summer.

### **5.5 Provision of exercise equipment and fitness posts across the area**

It was noted that action is continuing

### **5.6 Local Medical Practice**

Justin reported that the Sussmans remained keen and would bring a proposal forward to a future meeting. Council was, however, determined that without rooms, there could be no doctors and it was not possible to change the terms of Scott Brown's approval.

The Association's Committee had drawn a line under managing a community practice.

## **6. Other Business**

Clr Gardner asked that the letter about Portaloos go out the following day as Council was finalising the budget for its summer plan. The hygiene problems that had led to suggestion were, unfortunately, common in all the coastal councils.

Tim advised that an ANU lecturer who ran student tours out of the ANU Coastal Campus had asked for access to the Association's Agendas and Minutes for research purposes. The request was approved as these documents were publicly available.

Mary Stanwix noted that the roadside bins were being roughly handled by the collectors and some were being damaged. Council would be advised.

## **7. Next Meetings**

**Committee: Monday 4 JUNE 2018**

**General Meeting: Monday 18 JUNE 2018**
